

A complete portfolio of labelers to handle a variety of applications.

Superior Quality Labeling Solutions

Pressure Sensitive Labelers
applying excellence

Model 251 LABEL DISPENSER

- Top or side labeling
- Allen-Bradley operator interface
- Optional encoder for speed synchronization
- Speeds up to 150 cpm

Model 251 PRINT-TO-A-LOOP

- Designed to label cases, cartons and bottle applications when high speed batch printing is permissible
- Top or side labeling
- Allen-Bradley MicroLogix PLC
- Allen-Bradley panel view 550
- Allen-Bradley servo control
- Speeds up to 150 cpm

Model 305VP OUTSERT FEEDER

- Easy to operate
- Handles pre-folded glued outserts
- Ideal for top, side, or under the label applications
- 5-foot adjustable outsert hopper with power feed
- Servo motor drive
- Available as free standing applicator or integrated with full labeling system

NJM Packaging

is your single source supplier for quality labeling solutions offering a complete portfolio of labelers to handle applications from stand alone print to loop dispensers to fully automatic mid and high speed labelers complete with literature applicator and inspection systems.

Model 334 CHARGER

- High speed, heavy duty servo label dispenser
- Large screen color operator interface
- Graphic identification for machine faults
- Easy access product database
- Allen-Bradley PLC controls
- Comprehensive machine vision systems
- High speed operation up to 450 cpm

Available as a standard flag-on roll-on; trunnion roll; redundant labeling; oscillating pressure station; and labeler with outsert applicator and feeder

Model 326 AUTOCOLT III

- Completely enclosed frame
- Ideal for pharmaceutical applications
- Fully integrated label inspection system
- Servo-driven label dispenser
- Optional outsert applicator & feeder
- Speeds up to 250 containers per min

A Century of Packaging Expertise

Leading the Way in

LABELING

Also offering a complete line of Print & Apply labelers with RFID tagging capabilities. This benefits customers packaging Pharmaceutical / Nutraceutical / Vitamin and Personal Care Products

Model 130 BRONCO

- Servo-driven labeling machine
- Stainless steel construction
- Open-frame design
- Stainless steel raised-bed conveyor
- PLC controls 
- Swivel-mounted color touch screen
- HMI Control
- Speeds up to 200 cpm

Model UNI 300VA

- For wrap-around applications
- Quick simple set-up
- Compact design
- Stainless steel construction
- Servo drive technology
- Swivel-mounted touch screen HMI controls
- Speeds up to 120 cpm

Model 400 FINAL TOUCH Print & Apply

- Allen-Bradley 550 touch screen operator interface and PLC Controls
- Smart rewind system
- Choice of printers
- RFID tagging capable
- Ideal for cases, cartons and bag labeling
- Speeds up to 50 cpm

Model 277 AUTOSERT™ Outsert Applicator

- Compact & versatile outsert extraction
- Attaches outserts to pharmaceutical containers at high speeds
- Handles a wide range of outsert sizes and reduces operating costs by minimizing the cost of consumables
- Applies to speeds up to 220 bottles per minute

Pressure Sensitive Labeling Machines

Model 120 MINICOLT

- Compact wrap around labeler for round containers
- Raised bed stainless steel conveyor
- User-friendly control panel
- 14" diameter label spool
- Drum wrap-around
- Up to 100/minute

Model 126 TROTTER

- Servo-driven label dispenser
- Stainless steel open frame design
- Stainless steel raised-bed conveyor
- PLC controls 
- Label registration sensor
- Rewind spindle
- Touch screen HMI controls
- Speeds up to 120 cpm

Model 276 CAROUSEL Outsert Feeder

- Reduce labor costs
- Improve productivity
- No-tool changeover
- Increase component storage capacity
- Run times of over one hour possible

RFID TAGGING CAPABILITIES
